Subject: consent to access property

Ms. Sundberg,

I just tried to call you to ask whether you have had a chance to review the consent for access to the property on highway 70 in Lac du Flambeau. Unfortunately, your phone message box is full and I was unable to leave a message.

As you know, we are planning to do some pilot testing at your property to assess the possibility of using certain methods to clean up the contamination in soil and groundwater. My contractor is currently planning the tests and I will share the specifics with you when I receive their plans for the field activities.

Please respond and let me know if you have received my messages and reviewed the consent to access form. I am happy to answer any questions you may have about the upcoming field work. I appreciate your cooperation and look forward to hearing from you.

Regards,

Bob
